

Ukraine and the "Age of Impunity"

Featuring David Miliband

Pathstone was recently honored to host David Miliband, President and CEO of the International Rescue Committee (IRC) and a former Foreign Secretary of the United Kingdom, for a discussion of the crisis in Ukraine.

David Miliband

As an expert in international affairs, David has been vocal in warning of a world order he sees as shifting toward callous autocracy – in other words, an “age of impunity.” David’s wealth of knowledge and understanding of the broader geopolitical and economic implications of this war offered an opportunity for the Pathstone community to hear his unfiltered views and to submit their own questions.

While the discussion focused naturally on the crisis in Ukraine, it also explored broader geopolitical issues, many of which have implications for private sector investors.
